

Emergency Medical Technician, Paramedic, Medical Office Assistant

[The North Carolina Community College System Office](#) has additional courses for:

- Nurse aides who are seeking to refresh their skills prior to re-taking the state-approved competency examination.
- EMTs, paramedics, and medical office assistants who need to learn additional skills to pass the state-approved competency examination but do not need to repeat skills training in some areas of the nurse aide curriculum.

To find information about these programs in your area, contact your [local community college](#).
